Body Image Diagram
Describe injury (redness, bruising etc.)

Older adults can experience bruising in dotted areas - Note anything unusual or outside the area.
If the adult is vulnerable and has been harmed, consent is often an issue. Ask Questions to assess:

- Confusion
- Possible Intimidation
- Possible Infection or fever

Possible questions include:

- Are you in pain?
- Would you like to be cleaned up?
- When was the last time you ate?
- Are you thirsty?
- Would you like salve for your wound?
- Would you like to see a doctor?

“If the adult has open wounds and is refusing to see the doctor it may be because they have been told the caregiver will go to jail and the adult will be in a nursing home. See Parasitic Living

**FINANCIAL HARM -- APS also accepts reports of financial harm to vulnerable adults**

- Parasitic Living: “Caregiver’s” sole source of income is the victim
- Caregiver/suspect controls the money, no audit/no 2nd look
- Poor or no care being given to the victim
- Not providing adequate care to the victim because it would require “caregiver” to pay for care instead of spending money on the “caregiver’s” desires or needs
- “Caregiver” may fail to seek adequate medical attention to avoid criminal charges of vulnerable adult abuse neglect
- List of all services performed by suspect/amount of pay for the services
- Income claimed on suspect’s taxes

**Other Financial Harm**

- Controlled by: [ ] Victim [ ] Other: ____________________________
- Bank Account (Institution): ____________________________
- Bank Account Number: ____________________________

- Ownership of property damages (deeds, car titles, accts)
- Misuse of legal documents (DPOA, guardianship, conservatorship – depleting Vulnerable Adult’s assets)
- New friend/person helping with finances – church, grocery store, estranged family member
- Requested records/receipts for expenditures by suspect
- Power of Attorney [ ] Signed acknowledgement to keep receipts, no joint account and no gifts to self
- Second mortgage or reverse mortgage
- Quit Claim deed
- New auto the victim does not drive
- New or missing credit cards
- Missing valuables or antiques

**COGNITION is not an all or nothing matter.** Current research shows that financial savvy may decline in every human brain after the age of 60 regardless of how smart you are. Ask questions that help you find out if the person understands the consequences of their actions.
