- Bitcoin

Bitcoin is a cryptocurrency where the creation and transfer of bitcoins is based on an open-source cryptographic protocol that is independent of any central authority. Bitcoins can be transferred through a computer or smartphone without an intermediate financial institution.

You have to send 0.5 BTC to Bitcoin address 1gVi7gzmJEP3eZus25CYxyvJTzHVKeFfH and specify the Transaction ID on the next page, which will be verified and confirmed.

So for anyone that has not heard. Liberty Reserve was shutdown indefinitely for Money Laundering. What does this mean for fakeplastic??? It means we are going to accept Bitcoin as our primary payment system. What about PerfectMoney or Webmoney??? These sites are well known for shutting off accounts and freezing funds. It is only a matter of time before the US shuts down PerfectMoney for the same reasons they did LR.

I strongly urge everyone who is working in our line of work to start using Bitcoin. Bitcoin cannot be shutdown by any person or government, it cannot track your ass down, it is anonymous and safe! It is why SilfRoad (largest drug buying marketplace) has always used Bitcoin as a payment processor.
