CONTROL UNITS

The **NATIONAL ASSOCIATION OF MEDICAID FRAUD CONTROL UNITS** was founded in 1978 to provide a forum for the mutual exchange of information and to facilitate communication among the state Medicaid Fraud Control Units. The Association fosters interstate cooperation on legal and law enforcement issues affecting the Units and conducts training programs and provides technical assistance to its members.

The Association represents the 53 Medicaid Fraud Control Units that investigate and prosecute Medicaid provider fraud and fraud in the administration of the Medicaid program. The Units are also responsible for protecting the most vulnerable of our population, those who reside in healthcare facilities, from abuse and neglect.

This statistical report includes information from January to December 2021 and was compiled and produced by **Linda Vang**, Meetings Manager, National Association of Medicaid Fraud Control Units. The following statistics are a part of the January 2021 – December 2021 year.
